Subject: [External] Courtesy Notification for Interruption of Service - North Myrtle Beach, SC
Date: Thursday, October 28, 2021 9:37:36 AM

Jocelyn, per our previous phone conversation:

[This is an update to a previous email communication.] In accordance with SC Code Reg 103-414, this is a courtesy notification for a gas pipeline incident in North Myrtle Beach, which involved the interruption of service to greater than 50 customers.

On October 27th, 2021, at approximately 11:20 AM, a third-party contractor damaged a 8" natural gas distribution main off of HWY 9, near North Myrtle Beach. At that time, Dominion Energy South Carolina (DESC) isolated the leak and stopped the flow of gas. This necessitated the interruption of service for approximately 390 DESC gas customers. As of 6:30 AM, October 28th, DESC Operations crews have begun restoring service to customers.

The incident has not captured any media attention that we're aware of at this time. We will follow up with supplemental information as it becomes available, and we will submit a written notification, per code requirement. If you have any additional questions, please do not hesitate to reach me.

Thank you,

--
